

Community Programs and Services Fund (Fund 80)

Police School Liaison Officer (\$13,000)– Being a rural school district, we do not have police protection in our village where the schools are located. Because of this, we contract with the Calumet County Sheriff's Department to provide us with Police School Liaison Services to the schools in the district. This service not only supports and provides safety to our students in the school, but it provides our community with an officer at various times throughout the day. This officer is an important link between home, school, and the community connections throughout the school year.

Utilities for Community Functions in the District (\$2,000) – The remaining budgeted funds in Fund 80 are used to pay for utilities related to community events that are held in the district throughout the year.

Total Fund 80 Levy - \$15,000.00
